Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 May 2003.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3, 4, 6-18, 20-26, and 31-33 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Each of the independent claims in the above noted claims has been amended to specify that the fixing device has "a fixing member provided with a heat source therein and a pressing member." Applicants state in the response that basis for this amendment is found on pages 78, 90, 91, 105, and 106 at the lines noted on page 13 of the response. The Examiner has carefully reviewed each of these sections as well as the specification as a whole but cannot agree that the specification as filed provides basis for these limitations. Each of the noted specification passages describes a fixing device composed of a fixing roller and a pressing roller provided opposite to the fixing roller. The specification also states that the central part of the inside of the fixing roller has a heating means, such as a halogen lamp, as a heat generating source. The specification is specific in its disclosure of the fixing device and does not describe any broader device.

The claims as now presented encompass not only roller fixing device components as discussed above but also components such as belts, plates, and other structures beyond the scope of the specification disclosure. There is no disclosure of these other components and no

Art Unit: 1756

disclosure of providing a heating source in any of these other components (e.g., belts, plates, etc.) included within the scope of the claims.

The claims are not described by the specification as filed and thus include new matter.

Claims 31-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 31-33 are incomplete as currently presented because it is unclear how the fixing device relates to the steps as presented. Independent claim 31 as presented only includes steps of developing and transferring, which do not refer to the use of a fixing device. It appears that the fixing step as originally recited in claim 1 was inadvertently left out of the claims. The Examiner suggests that claim 31 be amended to recite fixing of the toner image on the transfer material by a fixing device as described by the specification.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1756

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
